

PROCTORED TESTING

Proctored testing may be required in some online and blended learning courses — particularly math courses.

A suitable proctored environment is an environment directly monitored by an instructor, testing center administrator or other learning provider in a physical or online setting. Suitable proctors may include Tri-C Testing Centers, other accredited college or university testing centers, ProctorU, and military education centers. If an external testing center charges a fee, it is the student's responsibility to pay that fee. Tri-C does not charge a fee for students to take Tri-C exams in on-campus Testing Centers.

Tri-C has contracted with ProctorU to provide online test proctoring services. Learn more about ProctorU testing on the ProctorU for Students webpage. Explore other test proctoring options on the Testing Centers webpage.
