

# CCNP ENTERPRISE CERTIFICATION PROGRAM

## Program description

The CCNP Enterprise certification program provides the training required to secure professional-level jobs in enterprise networking technology. Automation and programmability are critical parts of the certification program.

The CCNP certification validates the central knowledge needed while giving students the flexibility to choose a focus area and earn individual specialist certifications along the way.

The program includes the following courses:

ZCIS-1089: Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR 350-401)

ZCIS-1088: Implementing Cisco Enterprise Advanced Routing and Services (ENARSI 300-410)

## Other important information

- Classes meet Tuesday and Thursday evenings (6-10 p.m.) for 15 weeks
