

IT SUPPORT PROFESSIONAL, CERTIFICATE OF PROFICIENCY

Students will be prepared with the knowledge and skills essential for a career as an entry-level service technician. They will be prepared to service computers and peripherals by discovering how to install, configure, diagnose, repair, upgrade and maintain microcomputers. Skills acquired will assist students in preparing to take industry A+ Certification exams. A+ Certification is an industry recognized credential that distinguishes one as a knowledgeable service professional.

ITNT-2320	Network Administration I	3
Select one of the following:		
ITNT-2310	TCP/IP	
ITNT-2370	Network Security Fundamentals	
Credit Hours		9
Total Credit Hours		32

¹ Credit-by-exam is available through the IT department to meet this requirement. Written departmental approval from the IT department required.

MATH-1140, MATH-1141, MATH-1200, MATH-1270, and MATH-1280 can no longer count towards fulfilling the college-level mathematics requirement. These courses were re-classified as developmental mathematics by the state of Ohio in 2016. Tri-C established a 5-year transitioning window for students who had completed these courses prior to 2016 to apply them towards meeting graduation requirements, which expired in Summer 2021. It is highly recommended to see a counselor to determine the appropriate math required for your current major.
