

# OHIO TRANSFER 36 (FORMERLY OHIO TRANSFER MODULE)

## Ohio Transfer 36

The Ohio Transfer 36 (OT36) is a subset of courses from among the general education requirements of Associate of Arts and Associate of Science degrees and bachelor's degrees at many institutions. Applied degree students may complete some individual OT36 courses within their degree program or continue beyond the degree program to complete the entire subset. Transfer students with an earned Associate of Arts or Associate of Science degree that contain an identifiable OT36 will have met the requirements of the receiving institution. Students may be required to meet additional general education requirements at the institution to which they transfer.

The application of transfer work to general education requirements beyond those contained in the OT36 will be done on a course-by-course basis. Individual courses that are part of an approved OT36 are guaranteed to transfer among public institutions of higher education on a course-by-course basis. Students will receive credit for successfully completed OT36 courses without completing the entire module. Learn more about the OT36 and see Tri-C's approved courses below.

Note: All Tri-C general education courses must be OT36 approved. Students should meet with a counselor to ensure that the courses selected are most appropriate for the intended degree at the receiving institution and its major and program requirements and that the courses meet Tri-C's minimum graduation requirements. It is also recommended that students review articulation agreements and transfer pathways for required or recommended OT36 courses.

## Ohio Articulation Number (OAN)

Learn more about OANs (select Ohio Transfer to Degree Guarantee on the landing page).

Courses within the OT36 may also be part of an approved Transfer Assurance Guide (TAG). OANs are listed below for courses that are also part of an approved TAG and begin with "O."
